

Alex Rivera

alex.rivera@email.com | Portland, OR | github.com/arivera

PROFESSIONAL SUMMARY

Full-stack developer with 3 years delivering React and TypeScript features for B2B SaaS, with REST API integration, performance improvements, and test coverage for production user flows.

SKILLS

TypeScript, React, JavaScript, Node.js, REST APIs, PostgreSQL, Jest, Git, Agile

PROFESSIONAL EXPERIENCE

Software Engineer | TechFlow Inc

Jan 2022 - Present

- Engineered customer-facing dashboard features in React and TypeScript for 2,000+ monthly active users
- Developed and integrated RESTful APIs in Node.js for billing and reporting modules used by frontend dashboards
- Improved API response times by 30% through query optimization and caching, supporting faster page loads for high-traffic dashboard views
- Collaborated with product and QA in agile two-week sprint cycles including code reviews

Junior Developer | BrightStart Labs

Jun 2020 - Dec 2021

- Wrote unit tests with Jest for critical checkout flows in the admin application
- Fixed bugs and shipped small UI improvements for an internal admin tool

PROJECTS

Portfolio Tracker

Technologies: React

- Created a React app with charting for mock investment data using public APIs

EDUCATION

B.S. Computer Science | State University

2020

CERTIFICATIONS

AWS Cloud Practitioner
